Follow up:

Section II of my comment requests that the BLM make the underlying leases for the Converse County Oil and Gas Project available, or at least provide the requisite information to locate the leases on the LR 2000 database.

This request is made pursuant to 40 CFR 1506.6(f): "Make environmental impact statements, the comments received, and any **underlying documents available** to the public pursuant to the provisions of the Freedom of Information Act ( 5 U.S.C. 552), without regard to the exclusion for interagency memoranda where such memoranda transmit comments of Federal agencies on the environmental impact of the proposed action. Materials to be made available to the public shall be provided to the public without charge to the extent practicable, or at a fee which is not more than the actual costs of reproducing copies required to be sent to other Federal agencies, including the Council."

I am requesting that the comment period be re-opened/extended once this information is made available.
